ADI Workshop: Working with Volunteers

Room 17, Capital Suite

Chairs: Jane Cziborra

Across the world people give their time freely to help others in need, whether on a weekly basis, once a month or once a year. This is a global force of positive community action that deserves the best support we can provide.

In this workshop you will meet volunteers and employees from Alzheimer's Society in the UK, together with a colleague from Alzheimer Nederland.

You will learn about developments in volunteer recruitment and support, and hear about the online training experiences of the United Kingdom and Netherlands. You will also get to know what volunteering is like at local community level too, with UK volunteers sharing their experiences.

It will be an opportunity to learn, share ideas and be inspired. From talking action to taking action, ensuring that time offered by volunteers is converted into something that makes a real difference.

Volunteering is at the very heart of society. We want to keep it that way. We want to do more of it. We want to do it better. If you agree, then join us.

This workshop is ideal for you if you want:

- ideas about volunteer recruitment and support and how to make it better
- to understand how online learning can revolutionise your volunteer training

Bring plenty of thoughts and ideas.

Speakers: Andrew Oldham, Christine Cribb and Willem Richter.

We look forward to meeting you!
